SUMMARY

Engineering Manager with over 8 years of experience in software development and technical team leadership. I combine people management with hands-on work: architecture design, code reviews, and defining delivery processes. Experience leading multiple Squads simultaneously, managing backlog alongside Product Managers, establishing roadmaps and technical goals, and coordinating stakeholders in Agile environments. Solid background as a Frontend Developer (React, Angular, Next.js) prior to moving into leadership roles, along with experience as a mentor and technical instructor.
